CURRICULUM VITAE FOR ALTERNATIVE HEALING TECHNIQUES

Background:

In 1988 Ted contracted a serious lung problem that rendered him so ill he could not walk more than ten paces without stopping to catch his breath. After unsuccessfully seeking medical answers, he turned to alternative methods and finally recovered his health. Ever since, his initial interest in alternative health techniques and spirituality developed into his passion for healing and helping others heal themselves and become more present. His passion is now Presence.

- | | |
